

HARVARD UNIVERSITY DIVISION OF ENGINEERING AND APPLIED SCIENCES

SPECIAL ELECTROLYTE CHEMISTRY SEMINAR

Dr. R. Heyrovska

Academy of Sciences of the Czech Republic
J. Heyrovsky Institute of Physical Chemistry
Prague

"Thermodynamic properties of alkali halides in aqueous solutions based
on partial dissociation and hydration"

Tuesday October 8, 1996

2:30 PM

Pierce Hall Room 114

Dr. Raji Heyrovska was born in Bangalore India, obtained an M.Sc. Degree from the Indian Institute of Science and a Ph. D. from the University of Cambridge England 1969 under Prof. J.N. Agar. Her thesis was "Thermogravitational Separation in solutions of electrolytes"

She is currently Resident Scientist at the J. Heyrovsky Institute of Physical Chemistry, Prague, and has been Visiting Scientist at Johns Hopkins University, Member of Electrochemical Society, Councillor of the European Section.
